Transformer Black Power Reclining Sofa with LED Lights

Short Description:

SKU: 309489

$1,399.95

We call this collection “The Transformer” because it will surely transform the way you enjoy your family room. The set is absolutely full of features you’ll soon not be able to live without. The collection is upholstered in a man-made polyurethane fabric that is both long wearing and easy to care for. The upholstery feature s a Diamond tufted quilt pattern with contrast stitching. The sofa, console loveseat and recliner each offer power actuated reclining seats and headrests. The power feature enables infinite adjustability to your personal preference. The sofa has a drop down table as a writing surface and also has charging ports for your devises along with power outlets. It also has task lights for your reading pleasure. All pieces have LED lighted bases to create a high tech ambience. All pieces have hidden storage in the lift up arm rests. This upholstery collection will not only provide long lasting comfort, but will become a conversation piece in your home.
