An elegant combination of traditional elements is paired to create the timeless look of the Dynasty Collection. The eye-catching design of the base and top rail of the sofa, love seat, and chair features a cherry finish with gold tipping, the elegant detail a perfect pairing to the complementing contrast of the patterned brown chenille fabric upholstery. Faux crystal-tufted, and trim detailed, coordinating tos s pillows accompany the sofa, which is paired with five, the love seat paired with four, and the chair paired with one. Furthering the traditional aesthetic are the round arms and contoured arm fronts.
